To: Jeremy Ginsberg, Darien Planning and Zoning Director

From: Kristin McClutchy

Subject: Business Site Plan Application #225-B, 1897 Boston Post Road

Dear Mr. Ginsberg

I own the Prue Barre business at 1958 Post Road and our family lives in Darien. In the past, we have supported the development of the Norton section of Town. The project put forth in Application #225-B at 1897 Boston Post Road, is a wonderful improvement to the neighborhood. The architecture, landscaping, and site plan will blend in well within the character of the Noroton community. Furthermore, this developer has a positive track record with their other development at 1950-1958 Post Road.

This project will continue to enhance the Noroton district and we look forward to its completion.

I trust you will forward my full support of the Vaccaro's application for re-development of this site to the Planning and Zoning Commission.

Sincerely,

Kristin McClutchy
