From: Peter Ike

Subject: Business Site Plan Application #225-B, 1897 Boston Post Road

Dear Mr. Ginsberg

I am the immediate neighbor to 1897 Post Road, as our address is 1913-15 Post Road. After reviewing the project and the site plan put forth for Application #225-B at 1897 Boston Post Road, my wife and I are in favor of this proposed development. This is a significant improvement to the neighborhood. The architecture, landscaping, and site plan will blend in well within the character of the Noroton community. Furthermore, this developer has a positive track record with their other developments in the area at both 1950 and 1958 Boston Post Road.

This project will continue to create charming little district within Darien and we look forward to the additional retail businesses on this end of the Post Road.

I trust you will forward my full support of the Vaccaro's application for re-development of this site to the Planning and Zoning Commission.

Sincerely,

Peter Ike

Peter Ike
