

Hi Jeremy,

It's Greg Doll from Noroton Presbyterian Church. Thanks for all you do for our town. I am writing on behalf of the church about a project that we hope will be a gift to the youth of our church and the broader community. We are hoping to enhance and slightly enlarge our current space outside our youth center (the SHAC). We've been thinking of ways to bless the youth who have been contending with so much isolation and disappointment as a result of Covid. What we came up with was a notion to transform our current outdoor space into a multipurpose youth area by leveling it, repaving it, painting it and adding another basketball hoop so it can be used as a basketball court, volleyball court, pickleball court and dodgeball court. We would love to welcome back our students when it is finally safe to regather with a beautiful new space to play and congregate. We also hope that it might be utilized by the community as a public space. Given the fact that the indoor basketball, volleyball courts are all currently closed, this might be a place for young people to gather for healthy recreation. Thank you so much for your consideration.

KInd regards,

Greg Doll
Senior Pastor, Noroton Presbyterian Church
