TOWN OF DARIEN
PLANNING & ZONING

Hello! We are a small family with a 5-year old daughter, moving from Norwalk to Darien, CT.

My husband, Luiz G Vier is a Senior Software Engineering Director at Priceline.com. His office is 5 minutes away from 688 Boston Post Rd. My daughter Luise started kindergarten locally this year as well.

I am a licensed Massage Therapist and Esthetician in the state of Connecticut.

I graduated from the Connecticut Center of Massage Therapy in Westport, CT, with a 4.0 GPA in 2016. I also recently completed my Masters of Acupuncture at the University of Bridgeport, also with a 4.0 GPA, and I am currently obtaining my US acupuncture license.

I have 13 years of working experience in oriental medicine, acupuncture and massage, as well an extensive oriental medicine education from the US, Brazil, China and Thailand. Prior to moving to the US, I had my own Acupuncture and Massage business in Brazil. Here in the US, I have worked at Equinox Darien and Kaia Yoga Darien, among others, and I am currently employed at the JHouse Spa in Greenwich.

I am writing to present my business plan to open an Acupuncture and Massage Spa in Darien, dedicating the lower-front of 688 Boston Post Rd for this purpose, while establishing residence on the lower-back and second floor of the house.

Having a home business will allow me to spend more time with my little one and to be an entrepreneur again in our local community.

My office will take up 430 sqft of the front of the first floor.

We will preserve the historical and architectural structure, as well as the residential character of this property, making no external changes unless directed by the town of Darien.

Sincerely,

Suselene Costa Kreibich
Luiz G. Vier
