FEE: \$150.00 per lot (Non-Refundable and Non-Transferable)

Request for Soil Test Observation

The Darien Health Department requires that a staff member be present to witness soil testing when the result of such testing will necessitate a report or plan review. This includes but is not necessarily limited to land subdivisions, septic system repairs, B100(a) situations which involve a change in use, additions, pool installations and any lot where septic systems will be utilized for sewage disposal. A professional engineer must be present for testing at all new construction sites and may be required for complex septic system repair and B100(a) situations.

In order to make an appointment, the application must be filled out and submitted with the appropriate fee. It is the applicant's responsibility to secure the services of the engineer, if necessary, and any necessary equipment, such as a backhoe.

Applicant (please print): _____ **Phone** _____

Purpose of testing (check one)
 new septic; septic repair/replacement; B100(a)

Number of lots to be tested: _____ x \$150.00 per lot = \$ _____

Location: _____

Engineer: _____ **Phone:** _____

Owner of Property: _____

As the owner or owner's representative, I certify that the Darien Health Department will be held harmless from any potential damages associated with soil testing and that permission is hereby granted to conduct all required tests.

Signature: _____ **Date:** _____

- For office use only -

Date request received _____
