JENNIFER A. CHARNESKI
FINANCE DIRECTOR

December 19, 2018

To the Members of the Board of Finance
of the Town of Darien

I am pleased to present the Comprehensive Annual Financial Report (CAFR) of the Town of Darien, Connecticut for the year ended June 30, 2018. This report was prepared by the Town's Finance Department, which is responsible for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. We believe the data, as presented, is accurate in all material aspects and that it is presented in a manner designed to illustrate fairly the financial position and results of operations of the Town. All disclosures necessary to enable the reader to gain an understanding of the Town's financial activities have been included.

The CAFR is presented in three sections: introductory, financial and statistical. This report follows the format for annual financial reports that the Governmental Accounting Standards Board suggests and the Government Finance Officers Association promotes through its Certificate of Achievement for Excellence in Financial Reporting program. The introductory section includes this transmittal letter, the Town's organizational chart and a list of principal officials. The financial section includes the management's discussion and analysis (MD&A), basic financial statements, required supplementary information, and the combining and individual fund statements and schedules, as well as the auditors' report. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

The Town is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996, U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments and Non-Profit Organizations, and the Connecticut Single Audit Act. Information related to these audits, including the schedule of federal awards, state financial assistance, findings and recommendations, and auditors' reports on the internal control over financial reporting and compliance with applicable laws and regulations are issued under separate covers and not included in this report.

Management assumes full responsibility for the completeness and reliability of the information contained in this report. Internal control policies and procedures are recognized as important elements of the Town's accounting system. Such controls are designed to establish reasonable, but not absolute, assurance that assets are protected against loss from unauthorized use or disposition and to provide the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits to be derived; and (2) the valuation of these costs and benefits requires estimates and judgments by management. Management believes that the Town's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The Board of Finance appointed the accounting firm of blumshapiro as the Town's independent auditor for the year 2017-2018. In addition to meeting the requirements set forth in State Statutes, the audit is also designed to meet the requirements of the Federal and State Single Audit Acts. The auditors' report on the basic financial statements is in the financial section of this report. The auditors' reports related specifically to the Federal and State Single Audits are issued in separate reports.

Please refer to Management's Discussion and Analysis (MD&A), which follows the independent auditor's report for further information. The MD&A provides an introduction, overview and analysis of the basic financial statements.

ORGANIZATION AND SERVICES

The Town of Darien is located in lower Fairfield County on Long Island Sound. It is situated between Stamford and Norwalk and bordered on the north by New Canaan. Less than one hour from New York City, Darien is on the main line of the Metro North Commuter Railroad, and is served by the Connecticut Turnpike (I-95), the Merritt Parkway (R-15) and the Boston Post Road (US Route 1).

The Town of Darien was founded in 1737. The Town has a Representative Town Meeting (RTM) form of government, with a 5 member Board of Selectmen, 7 member Board of Finance and a 9 member Board of Education. The Town operates under the State of Connecticut General Statutes and the Charter and Code of Ordinances of the Town of Darien. The Charter was originally adopted in 1959 and the Code of Ordinances was adopted in 1972. Both are subject to revision on an ongoing basis. The 100 member RTM is the legislative body for the Town. The First Selectman, elected biennially, is the Chief Executive Officer of the Town. The Board of Finance, elected quadrennially to overlapping terms, serves as the Town's fiscal policy maker. Services provided by the Town to residents and taxpayers include general administrative services, public safety, education, public works, parks and recreation, health, social service, planning and zoning, and sewer services.

ACCOUNTING SYSTEM AND BUDGETARY CONTROLS

The Town and the Board of Education maintain a comprehensive budgetary reporting system to monitor the results of budget operations and ensure budgetary control and compliance with approved budgets.

All annual budgets are recommended by the Board of Selectmen and Board of Education to the Board of Finance, which, following careful review, recommends final budgets for approval by the RTM. The legal level of budgetary control is the Department. The Board of Finance, by charter, has the right to transfer unexpended balances and to establish a transfer approval process. The Board of Finance has granted the Town Administrator and Finance Director the authority to transfer up to \$5,000 within a department. Transfers between departments, or in excess of \$5,000, require approval by the Board of Finance. Management cannot transfer or over-expend at the department level without the approval of the governing body. The Board of Education has freedom of transfer within the approved Education budget, according to State law. Necessary and justified additional appropriations are recommended by the Board of Finance for RTM approval.

Purchase orders are encumbered and considered as expenditures for budget reporting purposes to ensure the availability of budget appropriations. Purchase orders are not released unless funding is available. Open encumbrances, reflecting goods and services not received are shown as a reservation of fund balance in the financial statements under generally accepted accounting principles (GAAP).

ECONOMIC CONDITION AND OUTLOOK

Darien is a community with high per capita income and housing values. Unemployment in Darien is slightly lower than the state and slightly higher than the national averages, standing at 4.3 percent compared to 4.4 and 4.0 for the state and nation in June 2018. Unemployment in Darien averaged 3.6 percent in calendar year 2017 and 3.8 percent through the first six months of 2018. Overall, Darien's unemployment rate has stayed level and continues to trend lower than the state and similar to the nation.

Inflation in Darien was slightly less than the national average. There is no predominant industry or employer in Darien. As a suburb of New York City, many residents are executives, professional, technical and managerial people employed in New York City and at industrial and corporate headquarters of nationally known firms located in surrounding Fairfield County communities. Darien is an active retail community, despite its proximity to larger retail centers, with several shopping centers and many specialty shops.

The tax base is primarily residential (approximately 86%) with a limited number of commercial office and retail buildings. The value of local construction decreased to \$112,021,100, down 17.5% from the previous year. A total of 730 building permits were issued. This is a decrease from the prior year. Growth in Darien will continue to be stable or gradual, due to the limited amount of land available for development.

Property taxes comprise 94.5% of Town General Fund revenues and the current property tax collection rate remains strong at 99.8%. Collections of delinquent taxes were consistent with the prior year.

Intergovernmental revenues represent a small portion of Town revenues, reflecting only 0.4% in the current year. This is a decrease from 0.7% in Fiscal 2017. As a result of uncertainty related to intergovernmental revenues, the Fiscal 2019 budget contains a very conservative estimate for these payments. The property tax mill rate enacted for 2018-2019, 16.08, represented a 0.5% decrease.

LONG-TERM FINANCIAL PLANNING

A five-year financial forecast is prepared by the Board of Finance and presented to the Representative Town Meeting each year at the State of the Town meeting in December. The plan addresses both operating and capital expenditures as well as revenues. Factors considered in the Five Year Forecast include student population growth, interest rates for investments and planned debt offerings, locally generated revenues, state grants, inflation rates, planned benefit changes, personnel changes and grand list growth. While not a budget, this document is referred to during the budget process.

The Board of Finance has adopted a Fund Balance Policy. This is also a consideration in development of the Five Year Forecast. The Fund Balance Policy calls for the Town to maintain a minimum fund balance of 10% of the audited General Fund Revenues. It is the practice of the Board of Finance to maintain the fund balance above the minimum level. This allows the Town to maintain sufficient fund balance to provide protection in case of unforeseen emergencies, to moderate mill rate increases and to avoid excessive accumulation.

The Town and Board of Education are covered under a fully insured medical insurance plan. The Town and Board of Education dental plans are self-insured and are being viewed as a manageable financial risk. The Town is responsible for property losses due to fire and other disasters up to \$10,000, floods and earthquakes up to \$50,000 and auto collision of \$500 per vehicle and is fully insured for claims in excess of those amounts. The Town carries Workers' Compensation insurance as mandated by law.

A safety committee exists to review safety measures and make recommendations for improvement when necessary. These programs combined with periodic OSHA and insurer safety inspections are used by the Town to control accidental injury losses and provide a safe environment for employees and the public.

MAJOR INITIATIVES

In fiscal year 2017-2018, the Town of Darien continued its practice of regular replacement of equipment for the Public Works Department, Parks & Recreation Department, Police Department and Volunteer Fire Departments. The Town funds accounts for such replacements on a regular basis to avoid large swings in the budget. During FY 2017-2018, approximately \$1,168,000 was expended in these programs.

School projects continued including the replacement of a turf field, repair of the high school track and numerous smaller projects. Expenditures for school projects totaled approximately \$1,507,000 in fiscal year 2017-2018.

A total of \$6,545,000 has been appropriated for renovation of the Public Work's garage. The project was completed under budget. A total of \$1,951,359 has been appropriated for the expansion of the Darien High School cafeteria. The project is underway and expected to be completed in late 2018. In fiscal 2017-2018, \$1,020,000 was for the replacement of the roof and skylight at Holmes Elementary School. A total of \$585,000 was also appropriated for the replacement of the turf baseball field at Darien High School.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Darien for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2017. This was the twenty-fifth consecutive year the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

ACKNOWLEDGEMENTS

The preparation of this report on a timely basis was made possible by the cooperation and dedicated services of the entire staff of the Finance Department. The efforts of all those who contributed to the preparation of this report are sincerely appreciated.

Appreciation is further extended to the Board of Finance for their support in the preparation of this report.

Respectfully submitted,

Jennifer A. Charneski
Finance Director

Independent Auditors' Report

To the Board of Finance
Town of Darien, Connecticut

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Darien, Connecticut, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town of Darien, Connecticut's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Darien, Connecticut, as of June 30, 2018 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 13 to the financial statements, during the fiscal year ended June 30, 2018, the Town of Darien, Connecticut, adopted new accounting guidance, GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. The net position of the Town of Darien, Connecticut, has been restated to recognize the net other postemployment benefit liability in accordance with GASB No. 75. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information and the pension and OPEB schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Darien, Connecticut's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2018 on our consideration of the Town of Darien, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Darien, Connecticut's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Darien, Connecticut's internal control over financial reporting and compliance.

Blum, Shapiro & Company, P.C.

West Hartford, Connecticut
December 19, 2018

Town of Darien, Connecticut
Management's Discussion and Analysis - unaudited
June 30, 2018
(In Thousands)

This discussion and analysis of the Town of Darien, Connecticut's (the Town) financial performance is provided by management to provide an overview of the Town's financial activities for the fiscal year ended June 30, 2018. Please read this MD&A in conjunction with the transmittal letter and the Town's financial statements, Exhibits I to IX. All amounts are expressed in thousands unless otherwise noted.

Financial Highlights

- Net position of our governmental activities increased by \$11,429 or 6.8%.
- During the year, the Town had expenses that were \$11,429 less than the \$176,999 generated in tax and other revenues for governmental programs.
- Total cost of all of the Town's programs was \$165,570 with no new programs added this year.
- The General Fund reported a fund balance this year of \$23,189.
- The resources available for appropriation were \$131 less than budgeted for the General Fund. Expenditures were \$3,043 less than budgeted.

Overview of the Financial Statements

This annual report consists of a series of financial statements. The statement of net position and the statement of activities (Exhibits I and II, respectively) provide information about the activities of the Town as a whole and present a longer-term view of the Town's finances. Fund financial statements are presented in Exhibits III to IX. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Town's operations in more detail than the government-wide statements by providing information about the Town's most significant funds. The remaining statements provide financial information about activities for which the Town acts solely as a trustee or agent for the benefit of those outside of the government.

Government-Wide Financial Statements

The analysis of the Town as a whole begins on Exhibits I and II. The statement of net position and the statement of activities report information about the Town as a whole and about its activities for the current period. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. These two statements report the Town's net position and changes in net position. The Town's net position, the difference between assets and liabilities, is one way to measure the Town's financial health, or financial position. Over time, increases or decreases in the Town's net position are one indicator of whether its financial health is improving or deteriorating. The reader needs to consider other nonfinancial factors, however, such as changes in the Town's property tax base and the condition of the Town's capital assets, to assess the overall health of the Town.

In the statement of net position and the statement of activities, the Town reports its activities as follows:

- *Governmental Activities* - The Town's basic services are reported here, including general government, community environment, public safety, health and social services, library, parks and recreation, public works, education, sewer and solid waste. Property taxes, charges for services, and state and federal grants finance most of these activities.

Fund Financial Statements

The fund financial statements begin with Exhibit III and provide detailed information about the most significant funds - not the Town as a whole. Some funds are required to be established by Charter. However, the Town of Darien establishes many other funds to help control and manage financial activities for particular purposes (like the Sewer Operations) or to show that it is meeting legal responsibilities for using grants and other money (like grants received from the State of Connecticut). The Town's funds are divided into three categories: governmental, proprietary and fiduciary.

- *Governmental Funds (Exhibits III and IV)* - Most of the Town's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Town's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. The relationship (or differences) between governmental activities (reported in the statement of net assets and the statement of activities) and governmental funds is described in a reconciliation included with the fund financial statements.
- *Proprietary Funds (Exhibits V, VI and VII)* - the Town maintains an Internal Service Fund. The Town uses its internal service fund to account for certain self-funded employee benefit costs. Because the internal service fund benefits governmental functions, they are included within governmental activities in the government-wide financial statements.
- *Fiduciary Funds (Exhibits VIII and IX)* - The Town is the trustee, or fiduciary, for its employees' pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. All of the Town's fiduciary activities are reported in separate statements of fiduciary net assets and changes in fiduciary net assets. These activities are excluded from the Town's other financial statements because the Town cannot use these assets to finance its operations. The Town is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Government-Wide Financial Analysis

The Town's combined net position at the beginning of the year was restated as a result of the implementation of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. The restatement reduced the beginning net position from \$161,269 to \$156,995. The Town's combined net position increased from the restated \$156,995 to \$168,424. The analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the Town's governmental activities.

	Governmental Activities	
	2018	2017 (as Restated)
Current assets	\$ 56,437	\$ 48,606
Capital assets, net of accumulated depreciation	189,501	186,642
Total assets	<u>245,938</u>	<u>235,248</u>
Deferred outflows of resources	12,912	5,958
Long-term liabilities outstanding	78,434	73,081
Other liabilities	7,278	7,273
Total liabilities	<u>85,712</u>	<u>80,354</u>
Deferred inflows of resources	4,714	3,857
Net Position:		
Net investment in capital assets	122,055	122,133
Restricted	14,861	17,956
Unrestricted	<u>31,508</u>	<u>16,906</u>
Total Net Position	<u>\$ 168,424</u>	<u>\$ 156,995</u>

Net position of the Town's governmental activities increased by 7.3%. Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements - changed from \$16,906 at June 30, 2017 to \$31,508 at the end of this year. A portion of the unrestricted net position was categorized as restricted consistent with the amount of restricted fund balance.

The change in governmental net position resulted primarily from to an increase in assets resulting from a positive result of operations in the General Fund, issuance of debt to reimburse prior capital expenditures and an increase in capital assets.

	Governmental Activities	
	<u>2018</u>	<u>2017</u>
Revenues:		
Program revenues:		
Charges for services	\$ 13,299	\$ 13,303
Operating grants and contributions	24,436	22,099
Capital grants and contributions	3	603
General revenues:		
Property taxes	138,101	132,032
Grants and contributions not restricted to specific purposes	98	278
Unrestricted investment earnings	341	235
Other general revenues	721	624
Total revenues	<u>176,999</u>	<u>169,174</u>
Program expenses:		
General government	4,492	4,893
Community environment	1,159	1,174
Public safety	15,582	13,467
Health and social services	1,820	2,004
Library	3,685	3,583
Parks and recreation	1,871	2,502
Public works	7,541	8,285
Board of Education	123,896	120,351
Sewer operations	3,337	3,321
Debt service	2,187	1,871
Total program expenses	<u>165,570</u>	<u>161,451</u>
Change in Net Position	11,429	7,723
Beginning Net Position	156,995	153,546
Restatement	<u> </u>	<u>(4,274)</u>
Ending Net Position	<u>\$ 168,424</u>	<u>\$ 156,995</u>

The Town's total revenues (excluding special items) were \$176,999. The total cost of all programs and services was \$165,570. Our analysis below considers the operations of governmental activities.

Governmental Activities

Property taxes were 78.0% of revenues and charges for services accounted for 7.5%. Operating grants and contributions increased by 10.6%. The 2017-18 property tax collection rate was 99.78%. Intergovernmental revenue increased minimally. The on-behalf contributions to the Connecticut State Teachers Retirement System remained stable. Investment income increased 44.8% due to increases in interest rates available on certain investments.

On the expense side, Board of Education expenses continue to be the most significant component accounting for 74.8%. Board of Education expenses increased because of negotiated wage increases, increased medical expenses and increased Special Education expenses.

Table 3 presents the cost of each of the Town's five largest programs - general government, public safety, public works, education and the public library - as well as each program's net cost (total cost less revenues generated by the activities). The net cost shows the financial burden that was placed on the Town's taxpayers by each of these functions.

	Total Cost of Services		Net Cost of Services	
	2018	2017	2018	2017
General government	\$ 4,492	\$ 4,893	\$ 2,068	\$ 2,860
Public safety	15,582	13,467	11,549	9,213
Public works	7,541	8,285	7,105	7,588
Education	123,896	120,351	98,077	96,877
Library	3,685	3,583	3,685	3,583
Total	\$ 155,196	\$ 150,579	\$ 122,484	\$ 120,121

Town Funds Financial Analysis

As the Town completed the year, its governmental funds (as presented in the balance sheet - Exhibit III) reported a combined fund balance of \$39,143, which is an increase from last year's total of \$26,535. The most significant increase occurred in the Capital Projects funds resulting from the issuance of bonds in August 2017. A portion of the bond issue reimbursed the Town for prior year expenditures.

General Fund Budgetary Highlights

There were no additional appropriations for the fiscal year ended June 30, 2018. A contingency of \$583 was included in the original budget. This contingency covered items such as nonunion wage increases, mid-year labor contract settlements and other unexpected expenses. The contingency was higher than the prior year due to unsettled union contracts.

Actual revenues were lower than budgetary estimates by approximately \$131. The final budget assumed that \$1,100 of fund balance would be used to offset expenses; however, only a portion of this amount was needed. Current year tax collections were \$1,175 higher than budget due to a conservative budgeted collection rate. Total Intergovernmental revenues were \$319 higher than budget due to conservative budgeting of State aid. Building permits were \$982 lower than budget due to the timing of permitting for proposed redevelopment projects. The budget included one half of the expected permit revenue. Permitting did not begin in 2017-18.

Actual expenditures were less than budgetary estimates by \$3,043. The budget included \$583 for Contingency. At year end, \$398 remained unused. Board of Education expenditures were \$729 lower than budget due to higher than anticipated State reimbursement of special education expenses. Debt Service expenditures were \$537 lower than budget due to the reclassification of current year debt service to completed bond projects with cash surpluses. Police Department expenditures were \$319 lower than budget primarily due to vacancies. Capital nonrecurring expenditures were \$224 lower than budget primarily due to higher than anticipated capital fund revenues. Risk Management expenditures were \$108 lower than budget due to lower than anticipated premium increases. Employee benefits expenditures were \$97 lower than budget due to vacancies.

Capital Asset and Debt Administration

Capital Assets

At June 30, 2018, the Town had \$189,501 invested in a broad range of capital assets, including land, buildings, park facilities, vehicles and equipment, roads, bridges, and water and sewer lines - Table 4. This amount represents a net increase (including additions and deductions) of \$2,858, or 1.5%, from last year.

	Governmental Activities	
	2018	2017
Land	\$ 19,634	\$ 19,634
Buildings	145,455	142,857
Land improvement	2,206	1,818
Machinery and equipment	8,588	8,083
Infrastructure	12,279	12,796
Construction in progress	1,339	1,455
Totals	\$ 189,501	\$ 186,643

The Town's fiscal-year 2018-19 capital budget calls for it to spend another \$4,761 for capital and/or non-recurring projects, principally for capital equipment and replacement. More detailed information about the Town's capital assets is presented in Notes 1 and 5 to the financial statements.

Long-Term Debt

At June 30, 2018, the Town had \$69,373 in bonds and notes outstanding versus \$66,875 last year.

The Town issued \$12,460 in new debt while paying \$9,646 in annual principal payments.

The Town's general obligation bonds continue to carry a rating of Aaa, the highest rating possible, a rating that has been assigned by national rating agencies to the Town's debt since 1973. The State limits the amount of general obligation debt that cities can issue based on formula determined under State Statutes based on type of debt and tax base. The Town's outstanding general obligation debt is significantly below this \$930,804 state-imposed limit.

Other obligations include accrued vacation pay and sick leave. More detailed information about the Town's long-term liabilities is presented in Note 8 to the financial statements.

Economic Factors and Next Year's Budgets and Rates

The Town's elected and appointed officials considered many factors when setting the fiscal-year 2019 budget tax rates, and fees that will be charged for services. One of those factors is the economy. Unemployment in the Town increased to an average of 3.8% for the first six months of 2018, compared to 3.6% for 2017. This compares with the State's average unemployment rate of 4.4% and the national average rate of 4.0% for the same period.

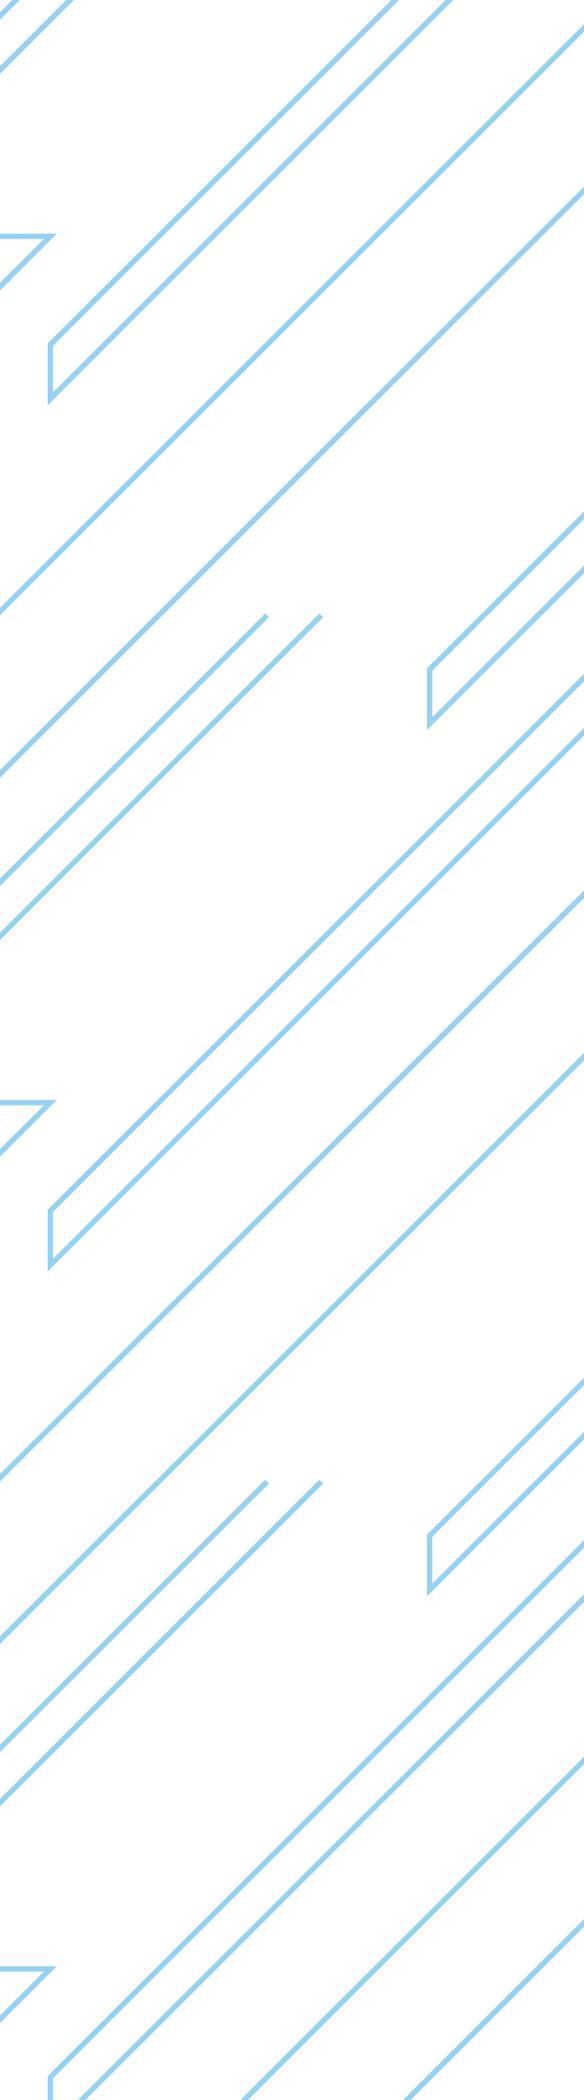

Inflation in the Darien area was slightly less than the national Consumer Price Index (CPI).

These indicators were taken into account when adopting the General Fund budget for 2018-19. Amounts available for appropriation in the General Fund budget are \$145,172, a decrease of 0.1% over the final 2018 budget of \$145,304. The practice of budgeting a contribution from fund balance has been discontinued in 2018-19. This change was done in conjunction with an increase in the budgeted property tax collection rate from 98.9% to 99.3%. Increased personnel costs and increased education expenses are the largest areas of expenditure increase.

If these estimates are realized, the Town's budgetary General Fund balance is expected to remain stable by June 30, 2019.

Contacting the Town's Financial Management

This financial report is designed to provide citizens, taxpayers, customers, investors and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department, Town of Darien, 2 Renshaw Road, Darien, Connecticut, 06820.

TOWN OF DARIEN, CONNECTICUT
BALANCE SHEET - GOVERNMENTAL FUNDS (CONTINUED)
JUNE 30, 2018

Reconciliation of the Balance Sheet - Governmental Funds
to the Statement of Net Position:

Amounts reported for governmental activities in the statement of net position
(Exhibit I) are different because of the following:

Fund balances - total governmental funds (Exhibit III)	\$ 39,142,987
--	---------------

Capital assets used in governmental activities are not financial
resources and, therefore, are not reported in the funds:

Governmental capital assets	\$ 308,442,947	
Less accumulated depreciation	<u>(118,942,233)</u>	
Net capital assets		189,500,714

Other long-term assets are not available to pay for current-period
expenditures and, therefore, are not recorded in the funds:

Property tax receivables greater than 60 days	404,653
Interest receivable on property taxes	170,053
Assessments receivable	2,120,915
Sewer use receivable	128,789
Deferred outflows - Pension	8,444,277
Deferred outflows - OPEB	2,540,733
Net pension asset	8,233,231

Internal service funds are used by management to charge the costs of
risk management to individual funds. The assets and liabilities of
the internal service funds are reported with governmental activities
in the statement of net position.

51,182

Long-term liabilities, including bonds payable, are not due and payable
in the current period and, therefore, are not reported in the funds:

Net OPEB liability	(6,686,958)
Bonds and notes payable	(65,026,101)
Interest payable on bonds and notes	(1,092,886)
Compensated absences	(2,374,203)
Bond premium	(4,346,797)
Deferred charge on refunding	1,927,400
Deferred inflows - Pension	(4,324,247)
Deferred Inflows - OPEB	<u>(389,750)</u>

Net Position of Governmental Activities (Exhibit I)	<u><u>\$ 168,423,992</u></u>

(Continued on next page)

TOWN OF DARIEN, CONNECTICUT
STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES -
GOVERNMENTAL FUNDS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2018

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities:

Amounts reported for governmental activities in the statement of activities (Exhibit II) are different because:

Net change in fund balances - total governmental funds (Exhibit IV)	\$	12,607,511
Governmental funds report capital outlays as expenditures. In the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:		
Capital outlay		8,486,046
Depreciation expense		(5,606,761)
The statement of activities reports losses arising from the trade-in of existing capital assets to acquire new capital assets. Conversely, governmental funds do not report any gain or loss on a trade-in of capital assets.		
		(21,048)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, and revenues recognized in the funds are not reported in the statement of activities:		
Property tax receivable - accrual basis change		48
Property tax interest and lien revenue - accrual basis change		138,885
Sewer assessment receivable - accrual basis change		(294,706)
Sewer use receivable - accrual basis change		(31,460)
Change in deferred outflows - Pension		4,852,401
Change in deferred outflows - OPEB		2,540,733
Change in net pension asset		(4,315,386)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are amortized and deferred in the statement of activities. The details of these differences in the treatment of long-term debt and related items are as follows:		
Bond and note principal payments		9,645,635
Issuance of bonds and notes		(12,460,000)
Premium on bond issuance		(347,401)
Amortization of premiums on debt issuance		664,247
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:		
Net OPEB Liability		(2,451,400)
Compensated absences		(442,768)
Accrued interest		(291,061)
Amortization of deferred charge on refunding		(438,295)
Change in deferred inflows - Pension		(467,025)
Change in deferred inflows - OPEB		(389,750)
Internal service funds are used by management to charge costs to individual funds. The net revenue of certain activities of internal services funds is reported with governmental activities.		
		50,913

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of Darien, Connecticut (the Town) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant policies of the Town are described below.

A. Reporting Entity

The reporting entity of the Town consists of all Town departments, the Board of Education, commissions, boards, authorities and funds.

The Town was founded in 1737. The Town has a Representative Town Meeting (RTM) form of government, with a 5-member Board of Selectmen, 7-member Board of Finance and a 9-member Board of Education. The Town operates under the State of Connecticut General Statutes and the Charter and Code of Ordinances of the Town of Darien. The Charter was originally adopted in 1959 and the Code of Ordinances was adopted in 1972. Both are subject to revision on an ongoing basis. The 100-member RTM is the legislative body for the Town. The First Selectman, elected biennially, is the Chief Executive Officer of the Town. The Board of Finance, elected quadrennially to overlapping terms, serves as the Town's fiscal policy maker. Services provided by the Town to residents and taxpayers include general administrative services, public safety, education, public works, parks and recreation, health, social service, planning and zoning, and sewer services. The Town has no component units.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements (except for agency funds which have no measurement focus). Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, pensions, other post-employment benefits, and claims and judgments, are recorded only when payment is due.

Property taxes when levied for, intergovernmental revenues when eligibility requirements are met, charges for services, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received.

The Town reports the following major governmental funds:

The *General Fund* is the primary operating fund of the Town. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property taxes, state and federal grants, licenses, permits, charges for service and interest income.

The *Sewer Operating Fund* is a special revenue fund that accounts for the revenues collected by the Town and expenditures related to the Town's Sanitary Sewer System.

The *Sewer Assessment Fund* is a special revenue fund that is used to account for receipt and assessment functions for sewers.

The *Capital Projects Fund* is used to account for the financial resources for the acquisition and construction of major capital facilities.

Additionally, the Town reports the following proprietary and fiduciary funds:

The *Internal Service Fund* is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the Town on a cost-reimbursement basis. It is used to account for the activities of the self-insured dental insurance program of the Town.

The *Pension Trust Funds* account for the activities of the Darien Retirement System, which accumulates resources for pension benefit payments to qualified Town employees and Police Officers. The pension trust funds follow the accrual basis of accounting.

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

The *OPEB Trust Funds* account for the activities of the Town's other post-employment benefit trust, which accumulates resources for pension and other post-employment benefit payments to qualified employees and retirees. The OPEB trust funds follow the accrual basis of accounting.

Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operation. The Board of Education Student Activity Fund is the Town's only agency fund.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between certain Town functions because the elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include property taxes.

D. Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the Town to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements and certain other investments as described in Note 3.

Investments are reported at fair value, except for investments in 2a7-like pools, which are stated at amortized costs.

E. Interfunds

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

F. Property Taxes

The Town's property tax is levied each July 1 on the assessed value listed on the prior October 1 Grand List for all taxable property located in the Town. Although taxes are levied in June, the legal right to attach the property does not exist until July 1. Therefore, taxes are due and payable in equal installments on July 1 and January 1, following the date of the Grand List. Interest of 1½% per month is charged on delinquent taxes. Liens are effective on the attachment date and are continued by filing prior to the following levy date. Additional property taxes are assessed for motor vehicles registered subsequent to the Grand List date through July 31 and are payable in one installment due January 1. An amount of \$124,361 has been established as an allowance for uncollectible taxes. At June 30, 2018, this represents approximately 18.17% of all property taxes receivable. All trade and property tax receivables are reported net of an allowance for uncollectibles.

G. Restricted Assets

The restricted assets for the Town are restricted for capital project purposes.

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

H. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

I. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is not included as part of the capitalized value of the assets constructed.

Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Building improvements	40
Infrastructure	10-40
Vehicles	2-20
Office equipment	5
Computer equipment	3

Capital outlays (assets) are reported as expenditures, and no depreciation expense is reported in the governmental fund financial statements.

J. Allowance for Doubtful Accounts

Accounts receivable including property taxes receivable for the primary government are reported net of an allowance for doubtful accounts. The allowance for doubtful accounts represents those accounts that are deemed uncollectible based upon past collection history and an assessment of the creditor's ability to pay.

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

K. Compensated Absences

The Town and Board of Education liability for vacation pay is based upon the carry forward of unused vacation days. Town employees other than police may carry forward up to twice the number of days earned in a year. Police may carry over unused vacation days up to one week. Board of Education employees are allowed to carryover up to the number of days specified in the various bargaining agreements. The maximum any Board of Education employee may carry over is 30 days.

The Town pays one-third of unused accumulated sick leave in excess of 150 days for eligible Town employees and police officers at retirement. Eligibility is based on hire date as specified in the various bargaining agreements. No employee or police officer hired after October 26, 2015 is eligible for payout of accumulated sick leave.

The Board of Education liability for sick leave payments is incurred only upon retirement of custodians and maintenance workers who have been employed for over ten years. The liability represents the lower of 1.25 times the number of years employed times the employee's daily pay or the employee's accumulated sick leave balance. The Town accrued the amount that is probable for payment.

Compensated absences are accrued when incurred in the government-wide financial statements. No expenditure is reported in the governmental funds for these amounts until the payment is made.

L. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town reports a deferred charge on refunding and deferred outflows related to pension and OPEB in this manner in the government-wide statement of net position. A deferred charge on debt refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. A deferred outflow of resources related to pension and OPEB results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension and OPEB expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees).

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The Town reports deferred inflows of resources related to pension and OPEB in the government-wide statement of net position. A deferred inflow of resources related to pension and OPEB results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension and OPEB expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension and OPEB plan (active employees and inactive employees). The Town reports in its governmental funds unavailable revenues, which arises only under the modified accrual basis of accounting. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The governmental funds report unavailable revenues from several sources: property taxes and interest on delinquent property taxes, sewer assessments, sewer use fees and interest on delinquent sewer use fees.

M. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the internal service funds are charges to other funds for services. Operating expenses for internal service funds include the cost of services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

N. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of any significant applicable bond premium or discount. Bond issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenses.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Bond issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Principal payments are reported as debt service expenditures.

O. Net Pension Asset

The net pension asset is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service (total pension liability), net of the pension plan's fiduciary net position. The pension plan's fiduciary net position is determined using the same valuation methods that are used by the pension plan for purposes of preparing its statement of fiduciary net position. The net pension asset is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

P. Other Post-Employment Benefit (OPEB) Liability

The net OPEB liability is measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position. The OPEB plan's fiduciary net position is determined using the same valuation methods that are used by the OPEB plan for purposes of preparing its statement of fiduciary net position. The net OPEB liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

Funding Policy

The Town makes annual contributions based on management's decisions, taking into account the latest actuarial valuation.

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

Q. Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and expenditures during the reporting period. Actual results could differ from those estimates.

R. Net Position

In the government-wide and proprietary fund financial statements, net position is classified in the following categories:

Net Investment in Capital Assets

This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce this category.

Restricted Net Position

These amounts are restricted to specific purposes when constraints placed on the use of resources are either (a) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislations.

Unrestricted Net Position

This category represents the net position of the Town that is not restricted for any project or other purpose. A deficit will require future funding.

S. Fund Balance

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance). In the governmental fund financial statements, the Town reported the following governmental fund balances:

Nonspendable Fund Balance

These amounts cannot be spent because they are not in spendable form, or because they are legally or contractually required to be maintained intact.

Restricted Fund Balance

These amounts are restricted to specific purposes when constraints placed on the use of resources are either (a) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislations.

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

Committed Fund Balance

This represents amounts constrained for a specific purpose by a government using its highest level of decision-making authority (Town of Darien Representative Town Meeting). The Town of Darien Representative Town Meeting is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Assigned Fund Balance

Amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The Town of Darien Representative Town Meeting has by resolution authorized the finance director to assign fund balance. The Board of Finance may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or review a commitment.

Unassigned Fund Balance

The residual amount not allocated to any other fund balance category in the General Fund and any residual deficit balance of any other governmental funds.

When both restricted and unrestricted amounts are available for use, it is the Town's practice to use restricted resources first. Additionally, the Town would first use committed, then assigned, and lastly unassigned.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

The Town adheres to the following procedures in establishing the annual budget of the General Fund:

- On the first Tuesday in March, the Boards of Selectmen and Education submit their respective budgets to the Board of Finance.
- On the second Tuesday in March, the Board of Finance conducts a public hearing at which taxpayer comments are heard.
- On or before the third Tuesday in April, the Board of Finance establishes its recommended Budget and the means to finance it including a tax rate for publication and submission to the Representative Town Meeting (RTM).
- On the second Monday in May, the Budget as approved by the Board of Finance is submitted to an RTM at which the budget is legally enacted through passage of a resolution by the RTM. The RTM has authority to either approve the recommended budget or reduce it; it is not permitted to vote an increase. The legal level of control is at the department level. The operating budget includes proposed expenditures and the means of financing them.
- The Board of Finance has the authority to transfer unexpended balances and to establish a process for transfer approval.

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

- Any subsequent appropriations that alter the total operating budget must be approved by the RTM.
- Formal budgetary integration is employed as a management control device during the year for the General Fund.
- Except for the accounting for encumbrances, budgets are adopted on a modified accrual basis of accounting.
- The Board of Education, which is not a separate legal entity but a separate department of the Town, is authorized under state law to make any transfers required within its budget at its discretion. Any additional appropriations must have Board of Education, Board of Finance and RTM approval.
- Budgeted amounts shown are as originally adopted, or as amended by the Board of Finance and RTM during the course of the year.
- Generally, all unencumbered appropriations lapse at year end. Encumbered appropriations are carried forward.
- The audited General Fund Balance at the end of the fiscal year should be no less than 10% of the audited General Fund Revenues for that fiscal year. It is the policy of the Board of Finance to keep the fund balance above the minimum level except under extraordinary events or in unanticipated situations.

The Sewer Operating Fund, a major fund, has an annual legally adopted budget. The Parking Operations Fund is a nonmajor fund with an annually adopted budget. Establishment of the budget requires Board of Selectmen, Board of Finance and RTM approval. There were no additional appropriations approved during the year for the Sewer Operating Fund. All budgets are on the modified accrual basis of accounting.

Expenditures of funds for long-term capital improvements are budgeted by project each year. Appropriations for capital projects are continued until completion of applicable projects, even when projects extend more than one fiscal year.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

The deposit of public funds is controlled by the Connecticut General Statutes (Section 7-402). Deposits may be made in a “qualified public depository” as defined by Statute or, in amounts not exceeding the Federal Deposit Insurance Corporation insurance limit, in an “out of state bank” as defined by the Statutes, which is not a “qualified public depository.”

**TOWN OF DARIEN, CONNECTICUT
 NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2018**

The Connecticut General Statutes (Section 7-400) permit municipalities to invest in: 1) obligations of the United States and its agencies, 2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof, and 3) shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. Other provisions of the Statutes cover specific municipal funds with particular investment authority. The provisions of the Statutes regarding the investment of municipal pension funds do not specify permitted investments. Therefore, investment of such funds is generally controlled by the laws applicable to fiduciaries and the provisions of the applicable plan.

The Statutes (Sections 3-24f and 3-27f) also provide for investment in shares of the State Short-Term Investment Fund (STIF). This investment pool is under the control of the State Treasurer, with oversight provided by the Treasurer’s Cash Management Advisory Board, and is regulated under the State Statutes and subject to annual audit by the Auditors of Public Accounts. Investment yields are accounted for on an amortized-cost basis with an investment portfolio that is designed to attain a market-average rate of return throughout budgetary and economic cycles. Investors accrue interest daily based on actual earnings, less expenses and transfers to the designated surplus reserve, and the fair value of the position in the pool is the same as the value of the pool shares. The State Short-Term Investment Fund (STIF) allows participants to make same day withdrawals and deposits of any size. The fund does not limit the size or number of participant transactions.

A. Deposits

Deposit Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the Town’s deposit will not be returned. The Town’s deposit policy for custodial credit risk requires pre-qualification of institutions with which the Town does business. The pre-qualification requirements include, but are not limited to, proof of creditworthiness, five years or more of operations, evidence of adequate insurance coverage, proof of state registration, and proof of compliance with state and federal capital adequacy guidelines. The deposit of public funds is controlled by the Connecticut General Statutes. Deposits may be placed with any qualified public depository that has its main place of business in the state of Connecticut or up to the FDIC limit in out-of-state banks.

Based on the criteria described in GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, \$39,417,069 of the Town’s bank balance of \$42,831,028 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ 35,445,862
Collateralized, held by banks	<u>3,971,207</u>
Total Amount Subject to Custodial Credit Risk	<u>\$ 39,417,069</u>

Connecticut General Statutes require that each depository maintain segregated collateral (not required to be based on a security agreement between the depository and the municipality and, therefore, not perfected in accordance with federal law) in an amount equal to a defined percentage of its public deposits based upon the depository’s risk based capital ratio.

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

Cash Equivalents

Cash equivalents are short-term, highly liquid investments that are both readily convertible to known amounts of cash and purchased within 90 days of maturity. At June 30, 2018, the Town's cash equivalents amounted to \$3,236,709. The following table provides a summary of the Town's cash equivalents (excluding U.S. government guaranteed obligations) as rated by nationally recognized statistical rating organizations. The pools all have maturities of less than one year.

	<u>Standard and Poor's</u>
State Short-Term Investment Fund (STIF)	AAAm
Fairfield County Bank Money Market	Not Rated
Chase Bank Money Market	Not Rated

B. Investments

Investments as of June 30, 2018 in all funds are as follows:

	<u>Fair Value</u>	<u>Maturity in Years</u>		
		<u>Less Than 1</u>	<u>1 - 10</u>	<u>More Than 10</u>
Interest-bearing investments:				
Certificate of Deposit	\$ <u>9,360,013</u>	\$ <u>101,550</u>	\$ <u>9,258,463</u>	\$ <u>-</u>
Total	9,360,013	\$ <u>101,550</u>	\$ <u>9,258,463</u>	\$ <u>-</u>
Other investments:				
Mutual Funds	55,714,053			
Common Stock	<u>80,777,755</u>			
Total Investments	\$ <u>145,851,821</u>			

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements); followed by quoted prices in inactive markets or for similar assets or with observable inputs (Level 2 measurements); and the lowest priority to unobservable inputs (Level 3 measurements). The Town has the following recurring fair value measurements as of June 30, 2018:

	June 30, 2018	Fair Value Measurements Using		
		Level 1	Level 2	Level 3
Investments by fair value level:				
Common stock	\$ 80,777,755	\$ 80,777,755	\$	\$
Mutual funds	55,714,053	55,714,053		
Total investments by fair value level	136,491,808	\$ 136,491,808	\$ -	\$ -
Certificates of Deposit	9,360,013			
Total Investments	\$ 145,851,821			

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

Interest Rate Risk

The Town's investment policy limits the maximum investment maturity to one year.

Credit Risk - Investments

As indicated above, State Statutes limit the investment options of cities and towns. The Town has an investment policy that allows the same type of investments as State Statutes.

Concentration of Credit Risk

The Town's investment policy does not allow for an investment in any one issuer that is in excess of 5% of the Town's total investments.

Custodial Credit Risk

Custodial credit risk for an investment is the risk that, in the event of the failure of the counterparty (the institution that pledges collateral or repurchase agreement securities to the Town or that sells investments to or buys them for the Town), the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town maintains a listing of financial institutions approved to provide custody based on their creditworthiness in accordance with the Town's investment policy. The investment policy details the information that must be provided by financial institutions on an annual basis to become or remain qualified for investment transactions.

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

4. RECEIVABLES

Receivables as of year end for the Town's individual major funds, and nonmajor and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Sewer Operating</u>	<u>Sewer Assessment</u>	<u>Capital Projects</u>	<u>Nonmajor and Other Funds</u>	<u>Total</u>
Receivables:						
Interest on delinquent taxes	\$ 106,584	\$	\$	\$	\$	\$ 106,584
Taxes	577,744					577,744
Accounts	379,442	123,123		507	401,451	904,523
Special assessments			2,121,935			2,121,935
Intergovernmental	2,932			198,938	299	202,169
Interest receivable	170,054	15,464				185,518

Total Transfers In	<u>\$ 674,344</u>	<u>\$ 6,771,694</u>	<u>\$ 7,446,038</u>

Interfund transfers are included in the annual budget to:

- Move revenues from the General Fund to fund capital projects and purchases. A total of \$3,943,704 was transferred to fund capital projects and purchases approved in the annual budget. A transfer of \$2,151,048 was used to fund completed capital projects that had not been fully bonded.
- Move revenues from the Sewer Operating Fund to the General Fund for principal and interest payments on sewer rehabilitation bonds.
- Move revenues from the Sewer Operating Fund to the Sewer Capital Fund for capital projects and purchases that were approved in the annual budget.
- Move revenues from the Sewer Assessment Fund to the General Fund for principal and interest payments on sewer construction bonds.
- Move revenues from the Police Private Duty Fund to the General Fund for administrative expenses.
- Move revenues from the Parking Operations Fund to the Parking Capital Fund for capital projects and purchases that were approved in the annual budget.

7. LEASES

Operating Leases

The Town leases some office equipment under operating leases. Total costs for such leases were \$363,968 for the year ended June 30, 2018. These leases are cancelable at any time before the expiration date of the year 2023. The future minimum lease payments for these leases are as follows:

<u>Year Ending June 30</u>	
2019	\$ 355,193
2020	282,670
2021	277,063
2022	140,941
2023	<u>1,080</u>
Total	<u>\$ 1,056,947</u>

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

During fiscal year 2018, principal and interest payments were funded by the General Fund. The Sewer Operating Fund and Sewer Assessment Fund reimbursed the General Fund \$53,807 and \$550,000 respectively, toward these payments. The Sewer Operating Fund is responsible for debt service of the sewer rehabilitation bonds, and the Sewer Assessment Fund is responsible for the majority of debt service for the sewer construction bonds. Payment of the principal and interest on Special Assessment Sewer Bonds is guaranteed by the full faith and credit of the Town.

The following is a summary of long-term debt principal and interest maturities.

<u>Year Ending June 30</u>	<u>Principal</u>	<u>Interest</u>
2019	\$ 8,831,657	\$ 1,930,050
2020	8,937,699	1,610,977
2021	8,746,745	1,262,469
2022	8,105,000	971,118
2023	6,960,000	750,225
2024-2028	16,470,000	1,843,105
2029-2033	3,665,000	788,797
2034-2037	<u>3,310,000</u>	<u>252,000</u>
Total	<u>\$ 65,026,101</u>	<u>\$ 9,408,741</u>

Authorized Unissued Bonds

At June 30, 2018, the Town of Darien had \$470,000 of authorized, unissued bonds for sewer line extension projects, \$14,327 for Intervale Road Drainage, \$105,673 for various paving projects, \$1,004,000 for DPW Garage Renovation, \$1,451,359 for expansion of the Darien High School Cafeteria, \$250,000 for the purchase and installation of a generator for Town Hall, \$250,000 for the construction of an athletic shed at Darien High School, \$1,020,000 for the replacement of the Holmes Elementary School roof and skylight and \$585,000 for the replacement of the turf baseball field at Darien High School.

Debt Limit

The Town’s total indebtedness does not exceed the limit of \$931 million allowed by State Statute.

Refundings

In prior years, the town defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liability for the defeased bonds are not included in the Town’s financial statements. The balance in escrow was \$2,604,954 at June 30, 2018. The outstanding balance of the defeased bonds as of June 30, 2018 is \$2,580,000.

Compensated Absences

The liability for compensated absences increased by \$442,767 this year. These liabilities are paid by the General Fund, Sewer Operating Fund and Parking Operations Fund.

**TOWN OF DARIEN, CONNECTICUT
 NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2018**

9. RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omission; or natural disasters. The Town purchases commercial insurance for all risks of loss, except dental claims as discussed below. During the year ended June 30, 2018, deductibles paid by the Town were insignificant. Settled claims for all types of commercial coverage have not exceeded coverage in any of the past three years. There were no significant reductions in insurance coverage from coverage in the prior year.

A. Risk Pooling

The Town is a member of the CIRMA Workers' Compensation Pool, a risk sharing pool. The Workers' Compensation Pool provides statutory benefits pursuant to the provisions of the Connecticut Workers' Compensation Act. The premium paid during the year ended June 30, 2018 was \$941,331. The premium is subject to payroll audit at the close of the coverage period. CIRMA's Workers' Compensation Pool retains \$1,000,000 per occurrence.

B. Self-Insurance Plans

The Town manages certain of its risks internally and sets aside assets for claim settlements. The General Fund accounts for the Board of Education dental plan and the Town Dental plan is recorded as a self insured fund within the Internal Service fund. A third party administers the Town's self-insurance program. There is no stop loss coverage.

The Town's General Fund accounts for the Board of Education dental plan. The plan is funded through annual General Fund appropriations and the claims liability of \$25,987 reported at June 30, 2018 is based on the requirements of GASB Statements No. 10 and 30, which require that a liability for claims be reported if information prior to the issuance of the financial statements indicated that it is possible that a liability has been incurred at the date of the financial statements and the amount of the possible loss can be reasonably estimated. The amount of the claim accrual is based on actual claims incurred prior to June 30, 2018 but paid in the next fiscal year. The claim accrual does not include other allocated or unallocated claims adjustment expenses.

The Town's Internal Service Fund accounts for the Town dental plan. The plan is funded through annual General Fund appropriations and the claims liability of \$7,445 reported at June 30, 2018 is based on the requirements of GASB Statements No. 10 and 30, which require that a liability for claims be reported if information prior to the issuance of the financial statements indicated that it is possible that a liability has been incurred at the date of the financial statements and the amount of the possible loss can be reasonably estimated. The amount of the claim accrual is based on actual claims incurred prior to June 30, 2018 but paid in the next fiscal year. The claim accrual does not include other allocated or unallocated claims adjustment expenses.

The analysis of the activity in the claims liability is as follows:

	<u>Claims Payable July 1,</u>		<u>Claims and Changes in Estimates</u>		<u>Claims Paid</u>		<u>Claims Payable June 30,</u>
2016-2017	\$ 39,187	\$	843,646	\$	839,566	\$	43,267
2017-2018	43,267		759,773		769,608		33,432

Significant encumbrances of \$212,833, \$6,578,171 and \$1,160 are included in the above table in the assigned categories and the restricted category of the of the General Fund, Capital Projects Fund and Nonmajor Governmental Funds, respectively.

11. EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS

Pension Plans

A. Plan Description

The Funded Retirement Plan of the Town of Darien

The Town contributes to a single employer, contributory defined benefit pension plan (the Town Plan) covering substantially all Town employees (except police) and noncertified Board of Education employees.

Employees of the Town regularly employed on a permanent full-time basis (excluding police and teachers) or any elective officer are covered by the Town Plan.

At July 1, 2017 (date of the last valuation), membership in the Town Plan consisted of:

Retirees, disabled members and beneficiaries currently receiving benefits and terminated members entitled to benefits but not yet receiving them	238
Current active members	<u>394</u>
Total	<u><u>632</u></u>

The Town Plan provides retirement benefits, as well as death and disability benefits. All benefits vest after five years of employment. If any employee leaves covered employment before five years or dies before ten years of employment, accumulated employee contributions plus related investment earnings are refunded.

Benefit and contribution provisions are subject to collective bargaining. These provisions are established by ordinance and may be amended only by concurrence of the Board of Selectmen, Board of Finance and the RTM for nonbargaining unit employees.

The general administration and management of the Town Pension Plan and the responsibility for carrying out the provision of the plan shall be placed in the Town Pension Board. This board shall be made up of not fewer than three or more than five electors appointed by the Board of Selectmen of the Town. An elector may be, but need not be, an elected official of the Town or a member of any other board or committee of the Town.

Town of Darien Police Pension Fund

The Town contributes to a single employer, contributory defined benefit pension plan covering all Town Police (the Police Plan).

At July 1, 2017, membership in the Police Plan consisted of:

Retirees, disabled members and beneficiaries currently receiving benefits	59
Current active members	<u>48</u>
Total	<u><u>107</u></u>

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

The Police Plan provides retirement benefits as well as death and disability benefits. Employees who retire with 20 years or more of credited service are vested and entitled to an annual retirement benefit, payable monthly for life. There is no provision for early retirement. If any employee leaves covered employment or dies before being eligible for a retirement, disability or death benefit, accumulated employee contributions plus 75% of related investment earnings are refunded. Benefit and contribution provisions are subject to collective bargaining.

The general administration and management of the Police Pension Plan and the responsibility for carrying out the provision of the plan shall be placed in the Police Pension Board. This board shall be made up of the members of the police commission, one member from the Town’s Board of Finance and one police officer.

B. Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting

The pension trust funds’ financial statements are prepared on the accrual basis of accounting. Employee and employer contributions are recognized as revenue in the period in which the employee services are performed. All other revenues are recognized when they are earned and expenses are recognized when they are incurred.

Neither the Town Plan nor the Police Plan issues a stand-alone financial report.

Method Used to Value Investments

Investments are reported at fair value. Investment income is recognized as earned.

Plan Description and Benefits Provided

Town employees are required to contribute 5% of their annual salary. Police are required to contribute 6% of their annual salary. The Town is required by ordinance to contribute the remaining amounts necessary to provide the retirement benefits. The Town’s contributions are actuarially determined on an annual basis. Administrative costs are financed through investment earnings.

C. Investments

The Town and Police Plans’ policy in regard to the allocation of invested assets is established and may be amended.

The following was the Pension Committee’s adopted asset allocation policy as of June 30, 2018:

<u>Asset Class</u>	<u>Target Allocation</u>
Domestic equity (large cap)	50.00%
Fixed income	50.00%
Total	<u>100.00%</u>

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

Rate of Return

For the year ended June 30, 2018, the annual money-weighted rate of return on pension investments for the Town and Police Plans, net of pension plan investment expense, was 5.28% and 5.31%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

D. Net Pension Liability (Asset) of the Town

The Town's net pension asset was measured as of June 30, 2018, and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of that date.

The components of the net pension liability (asset) of the Town at June 30, 2018 were as follows:

	<u>Town Pension Plan</u>	<u>Police Pension Plan</u>
Total pension liability	\$ 75,578,451	\$ 46,253,197
Plan fiduciary net position	<u>(79,000,754)</u>	<u>(51,064,125)</u>
Town's Net Pension Liability (Asset)	<u>\$ (3,422,303)</u>	<u>\$ (4,810,928)</u>
Plan fiduciary net position as a percentage of the total pension liability (asset)	104.53%	110.40%

Actuarial Assumptions

The total pension liability (asset) was determined by an actuarial valuation as of June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>Town Pension Plan</u>	<u>Police Pension Plan</u>
Inflation	2.75%	2.75%
Salary increases	Graded based on service for Teachers and Administrators, 3.50% for all others	Graded based on service
Investment rate of return	6.50%	6.50%

Mortality rates were based on the RP-2014 combined mortality table with improvements projected with mortality improvement scale MP-2017.

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2018 (see the discussion of the pension plan's investment policy) are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity (large cap)	4.57%
Fixed income	2.65%

Discount Rate

The discount rate used to measure the total pension liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2018, the Town recognized pension expense of (\$1,487,264). At June 30, 2018, the Town reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	Town Pension Plan	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in assumptions	\$ 2,569,449	\$ (1,861,338)
Net difference between projected and actual earning on pension plan investments		(810,390)
Difference between expected and actual experience	<u>4,440,658</u>	<u>(423,872)</u>
Total	<u>\$ 7,010,107</u>	<u>\$ (3,095,600)</u>

	Police Pension Plan	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in assumptions	\$	\$ (665,881)
Net difference between projected and actual earning on pension plan investments		(562,766)
Difference between expected and actual experience	<u>1,434,170</u>	<u></u>
Total	<u>\$ 1,434,170</u>	<u>\$ (1,228,647)</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

<u>Year Ending June 30</u>	Town Pension Plan	Police Pension Plan
2019	\$ 1,052,916	\$ 111,541
2020	905,340	11,532
2021	488,812	(266,355)
2022	607,667	295,204
2023	429,887	53,601
Thereafter	429,885	

Teachers Retirement

A. Plan Description

Teachers, principals, superintendents or supervisors engaged in service of public schools are provided with pensions through the Connecticut State Teachers' Retirement System, a cost sharing multiple-employer defined benefit pension plan administered by the Teachers Retirement Board. Chapter 167a of the State Statutes grants authority to establish and amend the benefit terms to the Teachers Retirement Board. The Teachers Retirement Board issues a publicly available financial report that can be obtained at www.ct.gov.

B. Benefit Provisions

The plan provides retirement, disability and death benefits. Employees are eligible to retire at age 60 with 20 years of credited service in Connecticut, or 35 years of credited service including at least 25 years of service in Connecticut.

Normal Retirement

Retirement benefits for employees are calculated as 2% of the average annual salary times the years of credited service (maximum benefit is 75% of average annual salary during the 3 years of highest salary).

Early Retirement

Employees are eligible after 25 years of credited service including 20 years of Connecticut service, or age 55 with 20 years of credited service including 15 years of Connecticut service with reduced benefit amounts.

Disability Retirement

Employees are eligible for service-related disability benefits regardless of length of service. Five years of credited service is required for nonservice-related disability eligibility. Disability benefits are calculated as 2% of average annual salary times credited service to date of disability, but not less than 15% of average annual salary, nor more than 50% of average annual salary.

C. Contributions

Per Connecticut General Statutes Section 10-183z (which reflects Public Act 79-436 as amended), contribution requirements of active employees and the State of Connecticut are approved, amended and certified by the State Teachers Retirement Board and appropriated by the General Assembly.

Employer (School Districts)

School District employers are not required to make contributions to the plan.

The statutes require the State of Connecticut to contribute 100% of each school districts' required contributions, which are actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of the benefits earned by employees during the year, with any additional amount to finance any unfunded accrued liability.

Employees

Effective July 1, 1992, each teacher is required to contribute 6% of salary for the pension benefit.

Effective January 1, 2018, the required contribution increased to 7% of pensionable salary.

**TOWN OF DARIEN, CONNECTICUT
 NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2018**

D. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the Town reports no amounts for its proportionate share of the net pension liability, and related deferred outflows and inflows, due to the statutory requirement that the State pay 100% of the required contribution. The amount recognized by the Town as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the Town were as follows:

Town's proportionate share of the net pension liability	\$ -
State's proportionate share of the net pension liability associated with the Town	<u>143,992,876</u>
Total	<u>\$ 143,992,876</u>

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016. At June 30, 2018, the Town has no proportionate share of the net pension liability.

For the year ended June 30, 2018, the Town recognized pension expense and revenue of \$16,655,770 in Exhibit II for on-behalf amounts for the benefits provided by the State.

E. Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2016, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increase	3.25-6.50%, including inflation
Investment rate of return	8.00%, net of pension plan investment expense, including inflation

Mortality rates were based on the RPH-2014 White Collar table with employee and annuitant rates blended from ages 50 to 80, projected to the year 2020 using the BB improvement scale, and further adjusted to grade in increased rates (5% for females and 8% for males) over age 80 for the period after service retirement and for dependent beneficiaries as well as for active members. The RPH-2014 Disabled Mortality Table projected to 2017 with Scale BB is used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2010 - June 30, 2015.

For teachers who retired prior to September 1, 1992, pension benefit adjustments are made in accordance with increases in the Consumer Price Index, with a minimum of 3% and a maximum of 5% per annum.

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

For teachers who were members of the Teachers' Retirement System before July 1, 2007 and retire on or after September 1, 1992, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 6% per annum. If the return on assets in the previous year was less than 8.5%, the maximum increase is 1.5%.

For teachers who were members of the Teachers' Retirement System after July 1, 2007, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 5% per annum. If the return on assets in the previous year was less than 11.5%, the maximum increase is 3%, and if the return on the assets in the previous year was less than 8.5%, the maximum increase is 1.0%.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Large Cap U.S. equities	21.0%	5.8%
Developed non-U.S. equities	18.0%	6.6%
Emerging markets (non-U.S.)	9.0%	8.3%
Core fixed income	8.0%	1.3%
Inflation linked bond fund	5.0%	1.0%
Emerging market bond	4.0%	3.7%
High yield bonds	5.0%	3.9%
Real estate	7.0%	5.1%
Private equity	11.0%	7.6%
Alternative investments	8.0%	4.1%
Liquidity fund	4.0%	0.4%
Total	<u>100.0%</u>	

F. Discount Rate

The discount rate used to measure the total pension liability was 8.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that State contributions will be made at the actuarially determined contribution rates in the future years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The Town's proportionate share of the net pension liability is \$-0- and, therefore, the change in the discount rate would only impact the amount recorded by the State of Connecticut.

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

H. Other Information

Additional information is included in the required supplementary information section of the financial statements. A schedule of contributions is not presented as the Town has no obligation to contribute to the plan.

12. OTHER POST-EMPLOYMENT BENEFITS

Post-Retirement Medical Programs

A. Plan Description

The Town, in accordance with various collective bargaining agreements and State Statutes, is committed to providing health and other benefits to certain eligible retirees and their spouses. The Town has two post-retirement medical programs, the Police Plan and the Non-Police Plan. The Police Plan covers sworn personnel employed as of July 1, 1999 and hired on or before November 20, 2007. The Non-Police Plan covers all other Town and Board of Education employees, including teachers. Under the Police Plan, the Police Union, retirees and beneficiaries currently receiving benefits are required to contribute specified percentages towards the cost of receiving those benefits. The percentage retirees are required to contribute for these benefits vary and are detailed within the Police Union bargaining agreements. The Town does not issue a separate stand-alone financial statement for this program.

Other post-employment benefits are established through State statute or the collective bargaining process. The Human Resources Director is the administrator of the plans. Investment authority is vested with the Town and Police Pension Boards.

Membership in the plans consisted of the following at July 1, 2017, the date of the latest actuarial valuation:

	Police Post-Retirement Medical Program	Non-Police Post-Retirement Medical Program
Plan membership:		
Retirees, surviving spouses and beneficiaries	36	42
Active plan members	34	565
Total Participants	70	607

B. Funding Policy

The Town established a trust fund to irrevocably segregate assets to fund the liability associated with post-employment benefits. The fund is reported as a trust fund in accordance with GASB guidelines. The annual actuarially determined contribution payment is transferred into this account annually from the General Fund and budgeted as a part of the budgeting process, which is approved by the Town Council.

The Town plans to continue a funding strategy that provides for normal cost and the amortization of the accrued liability. The Town’s funding strategy for post-employment obligations is based upon characteristics of benefits on several distinct groups of employees established within their respective collective bargaining units or required by the State and includes the following:

- Eligibility for benefits and the level of benefits range from 5 to 25 years of service at time of retirement determined by collective bargaining unit and date of hire.
- Medical benefits funded by the Town range from 72% cost of coverage for the retiree and dependents up until the employee’s death, to retirees paying the full cost of the coverage.
- Some retirees receive a stipend from the State of Connecticut towards the cost of their coverage.

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

C. Investments

Investment Policy

OPEB Benefits Plan's policy in regard to the allocation of invested assets is established and may be amended by the Town and Police Pension Boards by a majority vote of its members.

Rate of Return

For the year ended June 30, 2018, the annual money-weighted rate of return on investments, net of investment expense, was 4.78% and 5.26% for the Police and the Non-Police Retiree Benefit OPEB plans, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

D. Net OPEB Liability of the Town

The Town's net OPEB liability was measured as of June 30, 2018. The components of the net OPEB liability of the Town at June 30, 2018, were as follows:

	Police Post-Retirement Medical Program	Non-Police Post-Retirement Medical Program	Total
Total OPEB liability	\$ 8,062,050	\$ 6,327,361	\$ 14,389,411
Plan fiduciary net position	<u>4,217,737</u>	<u>3,484,716</u>	<u>7,702,453</u>
Net OPEB Liability	<u>\$ 3,844,313</u>	<u>\$ 2,842,645</u>	<u>\$ 6,686,958</u>
Plan fiduciary net position as a percentage of the total OPEB liability	52.32%	55.07%	53.53%

Actuarial Assumptions

The total OPEB liability at June 30, 2018 was determined by an actuarial valuation as of July 1, 2017, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

	Police Post-Retirement Medical Program	Non-Police Post-Retirement Medical Program
Inflation	2.75%	2.75%
Salary increases	Graded based on service	Graded based on service for Teachers and Administrators, 3.5% for all others
Investment rate of return	6.50%	6.50%
Healthcare cost trend rates	7.1% decreasing to 4.4% over 65 years	7.3% decreasing to 4.5% over 58 years

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

Mortality for Non-disabled and Disabled Police participants is based on the RP-2014 Mortality Table projected with Mortality Improvement Scale MP-2017. Mortality for Non-disabled and Disabled Teachers and Administrators is based on RP-2000 Combined Healthy Mortality Table projected using scale AA. Mortality for all other Non-disabled and Disabled participants is RP-2014 Non-disabled Mortality Table projected with Mortality Improvement Scale MP-2017.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset as of June 30, 2018 are summarized in the following tables:

<u>Asset Class</u>	<u>Target Allocation</u>
Domestic equity (large cap)	50.00%
Fixed income	<u>50.00%</u>
Total	<u><u>100.00%</u></u>

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity (large cap)	4.57%
Fixed income	2.65%

Discount Rate

The discount rate used to measure the total OPEB liability was 6.5%. The projection of cash flows used to determine the discount rate assumed that the Town contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Net OPEB Liability	3,568,364	2,842,645	2,246,960

G. Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the net OPEB liability of the Town, as well as what the Town's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower (6.3% decreasing to 3.5%) or 1 percentage point higher (8.3% decreasing to 5.5%) than the current healthcare cost trend rates:

	<u>1% Decrease (6.1% Decreasing to 3.4%)</u>	<u>Healthcare Cost Trend Rates (7.1% Decreasing to 4.4%)</u>	<u>1% Increase (8.1% Decreasing to 5.4%)</u>
Police Post-Retirement Medical Program			
Net OPEB Liability	\$ 2,962,310	\$ 3,844,313	\$ 4,769,700
Non-Police Post-Retirement Medical Program			
	<u>1% Decrease (6.3% Decreasing to 3.5%)</u>	<u>Healthcare Cost Trend Rates (7.3% Decreasing to 4.5%)</u>	<u>1% Increase (8.3% Decreasing to 5.5%)</u>
Net OPEB Liability	\$ 2,112,365	\$ 2,842,645	\$ 3,745,732

**TOWN OF DARIEN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

H. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the Town recognized OPEB expense of \$1,205,903. At June 30, 2018, the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Police Post-Retirement Medical</u>	
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Changes in assumptions	\$ 1,354,923	\$
Net difference between projected and actual earning on pension plan investments	49,758	
Difference between expected and actual experience		(48,510)
Total	<u>\$ 1,404,681</u>	<u>\$ (48,510)</u>

	<u>Non-Police Post-Retirement Medical Program</u>	
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Changes in assumptions	\$ 1,118,902	\$
Net difference between projected and actual earning on pension plan investments	17,150	
Difference between expected and actual experience		(341,240)
Total	<u>\$ 1,136,052</u>	<u>\$ (341,240)</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ending June 30</u>	<u>Police Post-Retirement Medical Program</u>	<u>Non-Police Post-Retirement Medical Program</u>
2019	\$ 316,255	115,382
2020	316,255	115,382
2021	316,255	115,382
2022	316,257	115,380
2023	91,149	111,094
Thereafter		222,192

Teachers Retirement Plan

A. Plan Description

Teachers, principals, superintendents or supervisors engaged in service of public schools plus professional employees at State Schools of higher education are eligible to participate in the Connecticut State Teachers' Retirement System Retiree Health Insurance Plan (TRS-RHIP), a cost sharing multiple-employer defined benefit other post employment benefit plan administered by the Teachers' Retirement Board (TRB), if they choose to be covered.

Chapter 167a of the State Statutes grants authority to establish and amend the benefit terms to the TRB. TRS-RHIP issues a publicly available financial report that can be obtained at www.ct.gov/trb.

B. Benefit Provisions

There are two types of the health care benefits offered through the system. Subsidized Local School District Coverage provides a subsidy paid to members still receiving coverage through their former employer and the CTRB Sponsored Medicare Supplemental Plans provide coverage for those participating in Medicare but not receiving Subsidized Local School District Coverage.

Any member who is not currently participating in Medicare Parts A & B is eligible to continue health care coverage with their former employer. A subsidy of up to \$110 per month for a retired member plus an additional \$110 per month for a spouse enrolled in a local school district plan is provided to the school district to first offset the retiree's share of the cost of coverage, and any remaining portion is used to offset the district's cost. The subsidy amount is set by statute and has not increased since July 1996. A subsidy amount of \$220 per month may be paid for a retired member, spouse or the surviving spouse of a member who has attained the normal retirement age to participate in Medicare, is not eligible for Part A of Medicare without cost and contributes at least \$220 per month towards coverage under a local school district plan.

Any member who is currently participating in Medicare Parts A & B is eligible to either continue health care coverage with their former employer, if offered, or enroll in the plan sponsored by the System. If they elect to remain in the plan with their former employer, the same subsidies as above will be paid to offset the cost of coverage.

If a member participating in Medicare Parts A & B so elects, they may enroll in one of the CTRB Sponsored Medicare Supplemental Plans. Active members, retirees and the State pay equally toward the cost of the basic coverage (medical and prescription drug benefits). There are three choices for coverage under the CTRB Sponsored Medicare Supplemental Plans. The choices and 2017 calendar year premiums charged for each choice are shown in the table below:

• Medicare Supplement with Prescriptions	\$ 92
• Medicare Supplement with Prescriptions and Dental	136
• Medicare Supplement with Prescriptions, Dental, Vision & Hearing	141

Those participants electing vision, hearing and/or dental are required by the System's funding policy to pay the full cost of coverage for these benefits, and no liability is assumed by the plan for these benefits.

Survivor Health Care Coverage

Survivors of former employees or retirees remain eligible to participate in the plan and continue to be eligible to receive either the \$110 monthly subsidy or participate in the TRB-Sponsored Medicare Supplemental Plans, as long as they do not remarry.

C. Eligibility

Any member who is currently receiving a retirement or disability benefit is eligible to participate in the plan.

Credited Service

One month for each month of service as a teacher in Connecticut public schools, maximum 10 months for each school year. Ten months of credited service constitutes one year of Credited Service. Certain other types of teaching services, State employment, or wartime military service may be purchased prior to retirement if the member pays one-half the cost.

Normal Retirement

Age 60 with 20 years of Credited Service in Connecticut, or 35 years of Credited Service including at least 25 years of service in Connecticut.

Early Retirement

Age 55 with 20 years of Credited Service including 15 years of Connecticut service, or 25 years of Credited Service including 20 years of Connecticut service.

Proratable Retirement

Age 60 with 10 years of credited service.

Disability Retirement

No service requirement if incurred in the performance of duty, and 5 years of Credited Service in Connecticut if not incurred in the performance of duty.

Termination of Employment

Ten or more years of Credited Service.

D. Contributions

State of Connecticut

Per Connecticut General Statutes Section 10-183z, contribution requirements of active employees and the State of Connecticut are approved, amended and certified by the State Teachers' Retirement Board and appropriated by the General Assembly. The State contributions are not currently actuarially funded. The State appropriates from the General Fund one third of the annual costs of the Plan. Administrative costs of the Plan are financed by the State. Based upon Chapter 167a, Subsection D of Section 10-183t of the Connecticut statutes, it is assumed the State will pay for any long-term shortfall arising from insufficient active member contributions.

Employer (School Districts)

School District employers are not required to make contributions to the plan.

**TOWN OF DARIEN, CONNECTICUT
 NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2018**

Employees

Each member is required to contribute 1.25% of their annual salary up to \$500,000. Contributions in excess of \$500,000 will be credited to the Retiree Health Insurance Plan.

E. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the Town reports no amounts for its proportionate share of the net OPEB liability, and related deferred outflows and inflows, due to the statutory requirement that the State pay 100% of the required contribution. The amount recognized by the Town as its proportionate share of the net OPEB liability, the related State support and the total portion of the net OPEB liability that was associated with the Town was as follows:

Town's proportionate share of the net OPEB liability	\$	-
State's proportionate share of the net OPEB liability associated with the Town		<u>37,062,146</u>
Total	\$	<u><u>37,062,146</u></u>

The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as June 30, 2016. At June 30, 2018, the Town has no proportionate share of the net OPEB liability.

For the year ended June 30, 2018, the Town recognized OPEB expense and revenue of \$1,717,647 in Exhibit II for on-behalf amounts for the benefits provided by the State.

F. Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2016, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Health care costs trend rate	7.25% decreasing to 5.00% by 2022
Salary increases	3.25-6.50%, including inflation
Investment rate of return	3.56%, net of OPEB plan investment expense, including inflation
Year fund net position will be depleted	2018

Mortality rates were based on the RPH-2014 White Collar table with employee and annuitant rates blended from ages 50 to 80, projected to the year 2020 using the BB improvement scale, and further adjusted to grade in increases (5% for females and 8% for males) over age 80. For disabled retirees, mortality rates were based on the RPH-2014 Disabled Mortality Table projected to 2017 using the BB improvement scale.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2010 - June 30, 2015.

**TOWN OF DARIEN, CONNECTICUT
 NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2018**

The long-term expected rate of return on plan assets is reviewed as part of the GASB 74 valuation process. Several factors are considered in evaluating the long-term rate of return assumption, including the plan’s current asset allocations and a log-normal distribution analysis using the best-estimate ranges of expected future real rates of return (expected return, net investment expense and inflation) for each major asset class. The long-term expected rate of return was determined by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years. The plan is 100% invested in U.S. Treasuries (Cash Equivalents) for which the expected 10-Year Geometric Real Rate of Return is (0.04%).

G. Discount Rate

The discount rate used to measure the total OPEB liability was 3.56%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current member contribution rate and that contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members. No future State contributions were assumed to be made. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to be depleted in 2018 and, as a result, the Municipal Bond Index Rate was used in the determination.

H. Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate and the Discount Rate

The Town’s proportionate share of the net OPEB liability is \$-0- and, therefore, the change in the health care cost trend rate or the discount rate would only impact the amount recorded by the State of Connecticut.

I. Other Information

Additional information is included in the required supplementary information section of the financial statements. A schedule of contributions is not presented as the Town has no obligation to contribute to the plan. Detailed information about the Connecticut State Teachers OPEB Plan fiduciary net position is available in the separately issued State of Connecticut Comprehensive Annual Financial Report at www.ct.gov.

13. PRIOR PERIOD ADJUSTMENT AND RESTATEMENT

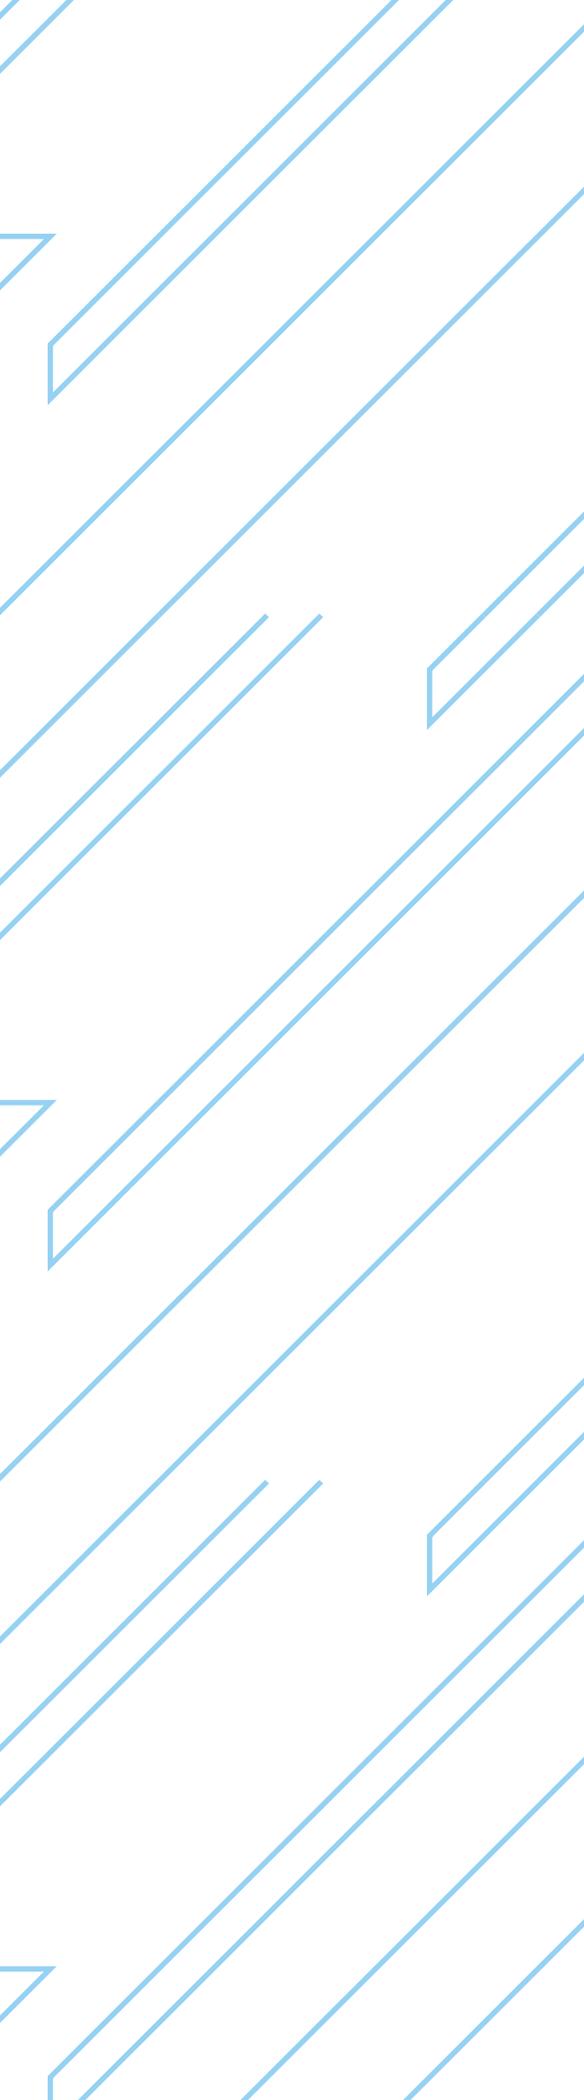

The following restatements were recorded to the beginning of net position of the governmental activities as a result of implementation of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*:

Net position at June 30, 2017, as previously reported	\$ 161,269,055
Adjustments:	
Eliminate net OPEB asset reported per GASB No. 45	(38,863)
Record net OPEB liability per GASB No. 75	<u>(4,235,558)</u>
Net Position at June 30, 2017, as Restated	<u>\$ 156,994,634</u>

14. CONTINGENT LIABILITIES

Amounts received or receivable from federal and state grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the Town expects such amounts, if any, to be immaterial.

The Town is a defendant in various lawsuits, and the outcome of these lawsuits is not presently determinable. In the opinion of management and the Town attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the Town.

Notes to Schedule

Valuation date: July 1, 2017
Measurement date: June 30, 2018
Actuarially determined contribution rates are calculated as of July 1, two years prior to the end of the fiscal year in which contributions are reported

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry Age Normal
Amortization method	Aggregate funding method
Asset valuation method	Market value
Inflation	2.75%, previously 3.00%
Salary increases	3.50%
Investment rate of return	6.50%
Retirement age	Assumptions related to age and service are used for participants not yet receiving payments.
Mortality	RP-2014 for nondisabled participants projected with mortality improvement scale MP-2017. RP-2014 for disabled participants projected with mortality improvement scale MP-2017.

(1) Actuarially Determined Contributions prior to fiscal year ended June 30, 2017 is based on the Annual Required Contribution (ARC) calculated in accordance with GASB No. 45

Notes to Schedule

Valuation date: July 1, 2017

Measurement date: June 30, 2018

Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry Age Normal
Amortization method	Level percent
Amortization period	20 years, closed
Asset valuation method	Market value
Inflation	2.75%, (Prior: 3.00%)
Healthcare cost trend rates	7.10% initial, decreasing to an ultimate rate of 4.40% over 65 years (Prior: 8.00% to 4.50% over 7 years)
Salary increases	Graded based on service
Investment rate of return	6.50%, net of plan investment expense, including inflation, previously 8.0% initial, decreasing to an ultimate rate of 4.5% after 8 years
Retirement age	Retirement rates of 10% for all years of eligibility, with 100% retirement at age 65. Upon attainment of 20 years of service, the retirement rate is increased by an additional 25% for that year.
Mortality	Mortality for Non-disabled participants - RP-2014 Total Employee and Healthy Annuitant Mortality table projected with Mortality improvement Scale MP-2017. For disabled participants mortality is based on RP-2014 Disable Retiree Mortality Table projected with Mortality Improvement Scale MP-2017.

(Prior: Mortality for Non-disabled participants - RP-2014 Total Employee and Healthy Annuitant Mortality table projected with Mortality improvement Scale MP-2015. For disabled participants mortality is based on RP-2014 Disable Retiree Mortality Table projected with Mortality Improvement Scale MP-2015.)

Nonmajor Governmental Funds

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenue sources that are legally designed to finance a particular function or activity. These funds are as follows:

Fund	Funding Source	Function
Cafeteria	Sale of lunches and state grants	Operations of the school lunch program
Special Education Grants	Federal and state grants	Finance education programs
Police Extra Duty	User fees	Police coverage for private purposes
False Police Alarm	Receipt of fines for false alarms	Improve police services
Fire Alarm	Receipt of fines for false alarms	Improve fire services
State and Federal Grants	State and federal grants	Various grant programs
Parking Operations	Parking fees	Provide and maintain parking facilities
Affordable Housing Trust	Fees	Accounts for fees received from developers in lieu of building affordable units in multi-unit housing projects and other sources as may be available. Funds are to be used to provide affordable housing in Darien.
Storm Recovery Fund	Federal and state grants	Accounts for expenses and reimbursement and grants related to Storm Sandy
Park Pals Play Area Trust	Contributions	Provide and maintain parks
Weed Beach Donations	Contributions	Provide amenities
Miscellaneous Trusts	Contributions	Various trust activities

CAPITAL PROJECT FUNDS

Stadium Field	Contributions	Fundraising for an artificial playing surface

Statistical Section

STATISTICAL SECTION INFORMATION

The objectives of statistical section information are to provide financial statement users with additional historical perspective, context and detail to assist in using the information in the financial statements, notes to financial statements and required supplementary information to understand and assess economic condition.

Statistical section information is presented in the following categories:

- *Financial trends information* is intended to assist users in understanding and assessing how financial position has changed over time.
- *Revenue capacity information* is intended to assist users in understanding and assessing the factors affecting the ability to generate *own-source revenues* (property taxes, charges for services, etc.).
- *Debt capacity information* is intended to assist users in understanding and assessing debt burden and the ability to issue additional debt.
- *Demographic and economic information* is intended 1) to assist users in understanding the socioeconomic environment and 2) to provide information that facilitates comparisons of financial statement information over time and among governments.
- *Operating information* is intended to provide contextual information about operations and resources to assist readers in using financial statement information to understand and assess economic condition.

The accompanying tables are presented in the above order. Refer to the Table of Contents for applicable page number locations.
