Maud Purcell, MSW, LCSW, CEAP

Chief Clinical Officer

Founder and Executive Director of The Life Solution Center of Darien

(203) 258-6770

Welcome to Saved From Addiction, Inc.:

I would like to extend my warm welcome to you. I am Dr. Joseph A. Russo, an Addictions Psychiatrist with over 17 years of experience in treating individuals with substance abuse and dual diagnosis disorders. I am the Executive Medical Director and CEO of **Saved From Addiction, Inc.**, and the Medical Director and Co-Founder of *The Recovery Center of Westport*. In recognition of the fact that we are now living in a time when addiction to opioids, alcohol and other substances has reached epidemic proportions, I have made the decision to join forces with Maud Purcell, Founder and Executive Director of *The Life Solution Center of Darien*, a collaborative community of professionals providing multidisciplinary answers to life's problems. Maud and I believe that as a team, we will have the best chance at effectively combatting the growing addiction crisis. We recognize there is nothing more important than preserving the dignity and sanctity of human life. Too many individuals, families and friends have suffered incalculable losses. We are committed to ending this outbreak now.

Saved From Addiction's philosophy is based upon respect, compassion and reduction of stigma for the client, while providing holistic and cutting edge technologies, assessment tools and treatment options addressing **all substance abuse and dual diagnosis disorders**. **Our programs are of significant duration: 6 months, 1 year or more**. And, we are equipped to provide **continuous and seamless care from initial contact until eventual completion, utilizing all necessary modalities under one roof**. Most exciting of all, Saved From Addiction **tackles treatment compliance** - a major barrier to success and ongoing abstinence - head-on, utilizing a range of approaches including the following:

- **In Home Drug Detoxification** - immediate, safe, efficient, discreet and comfortable
- **Vivitrol, Antabuse, and Naltrexone monitoring**
- **Suboxone, Subutex and Zubsolv maintenance therapies**
- **Psychopharmacology and psychopharmacogenetic testing**
- **Psychotherapies** - multiple models
- **Medical, laboratory and urine toxicology analysis and monitoring**
- **The ground-breaking and newly FDA-approved Probuphine Implant, which solidly and steadily stems opioid cravings for 6 months to 1 year or more with no risk of noncompliance**

On June 20, 2016, I was the first physician in all of New England to administer this treatment and it was aired on ABC News the next day. Saved From Addiction, Inc. remains the Northeast pioneer and Center of Excellence in providing this specialized and life saving option

At Saved From Addiction, our multidisciplinary teams are experts and are adept at providing comprehensive, thorough and complete care. We work synergistically to help our clients restore physical, emotional and spiritual well-being. And we assist in individuals saving themselves from the devastation of addiction. The Saved From Addiction team invites you, as patients, practitioners, family and community members, to join us in this effort.

Sincerely,

Joseph A. Russo, M.D.
