News Release

Town of Darien Town Hall Construction

The Town of Darien will be installing roof top solar panels on the town hall on Thursday, December 27, 2018 between 6:00 AM and 6:00 PM. Construction equipment will necessarily block through traffic around the building and eliminate available parking spaces.

If you park in the northern lower lot (near the ball field) access to and from the town hall will be through the doors near the loading dock. If you park in the western lot (near the arts council) your access will be the doors to the (south) stairwell. The rear entrance (near the town hall elevator) will be closed. Use basement hallway for access to elevator. Access through the front of the building will not be affected by this construction.

The photo below shows the area that will be blocked off and access points at rear of town hall. Ample parking will remain available in the front (eastern) lower lots in front of the town hall. We regret this unavoidable brief interruption in parking and access.
